PROFESSIONAL EXPERIENCE

IEEE - Educational Activities - Student & Academic Programs

Technical Solutions Specialist

August 2026 - Present

- Provides technical solutions across Student & Academic Programs (TRYEngineering, University Programs, Eta Kappa Nu) through automation, systems optimization, data analysis, website support, and cross-functional collaboration to improve processes and digital experiences.

Temporay Program Support Specialist

February 2026 - August 2026

- Supported Student & Academic Programs (EPICS & TRYEngineering through data management, reporting, process automation, website projects, and technical troubleshooting while improving workflows and program operations.

Volunteers of America - Greater New York

Peer Specialist

November 2025 - August 2026

- Deliver trauma-informed peer support within supportive housing, integrating emotional regulation support, resource navigation, and crisis-aware interventions supported by accurate, data-informed documentation.

Apex Remote Patient Monitoring Systems & Support Engineer

July 2021 - October 2025

- Supported a remote patient monitoring company focused on chronic care management. Maintained internal systems and SQL-/Excel-based databases, cleaned and organized patient health data, and worked closely with clinicians to improve accuracy, documentation, and continuity of care. Built tech workflows, standardized data processes, improved UI, and provided cross-functional support across admin, data, and clinical tasks.

New Jersey City University

Research Intern / Technical Aide

May 2016 - Sept 2018

- Provided technical support and data/reporting assistance for students and faculty while contributing to a grant-funded behavioral health app through research tracking, use cases, wireframes, and usability-focused feature development.

PROJECTS

Dialectical Behavior Therapy Flashcards

2025

- Designed, developed, and deployed an interactive DBT skills flashcards website from the ground up using HTML, CSS, JavaScript and Git, handling UI/UX design, front-end development, and content structuring, and integrated Plausible analytics to track user engagement and inform iterative updates.

Sunlit Door Designs

2025

- Curated a virtual art & mental health space via an Etsy shop & Instagram, creating accessible wellness-focused visuals.
